

Temple Filler Injection

What to expect:

-you can enjoy the results right away

-some small areas of redness and swelling near the injection areas is common. Some slight bumpiness in these areas is also common. This will resolve in 1-3 days.

-you may experience some temple soreness. It may be tender to the touch or when you try to bite/chew. This is normal and should resolve in 1-3 days.

What you need to do:

-nothing!

What you shouldn't do:

-there are no restrictions

Things to look out for:

-any large amount of pain, swelling, or bruising is extremely rare. If you experience any of this, please call the office
